

# Ray Mini

Norlux -the nordic lighting supplier

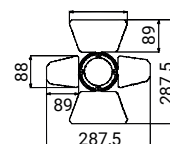

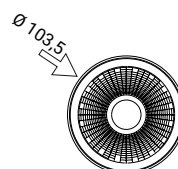

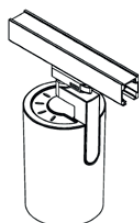

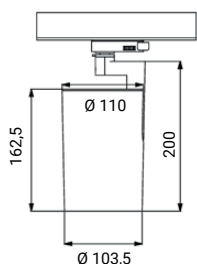

Track Mounted  
Modell

Ray-On  
Mini

Ray Mini uses the possibilities created by new technology. The LED driver is mounted inside the luminaire body. This gives us a slim design combined with a powerful lightoutput that can be easily adjusted in all directions to meet all needs. Ray Mini can be tilted 90 degrees and rotated 350 degrees its own axis. To create further opportunities to "play" with light you can mount a diffuser on the luminaire, this can be ordered separately. See table below for technical details.

# Ray Mini ArcticWhite

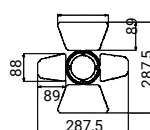

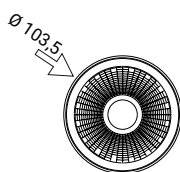

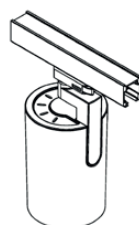

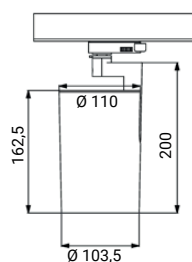

Norlux -the nordic lighting supplier

Fresh  
cool whites  
+  
Warm  
saturated colours

Ray Mini Arctic White utilizes the possibilities created by new technologies in terms of both design and quality of the light. The Arctic White LED chip with CRI > 90 provides a unique perception of the light and is very well suited for use in shops where one wants an exclusive feeling. Ray Mini has the LED driver mounted in the luminaire body giving a sleek design combined with light that can easily be adjusted wherever you want it. See below for details.
